At Boca do Lobo, artisans work intimately with noble materials such as brass, copper, and stainless steel, molding, sculpting, and refining every surface to achieve both enduring beauty and structural integrity. Inspired by nature's organic rhythms and the bold lines of contemporary architecture, their hands give life to metal — turning it into sculptural statements where artistry and technique become one.

JOINERY & WOOD CARVING

Joinery stands as one of the most fundamental principles of woodworking — the invisible force that binds each element into a harmonious whole and forms the very skeleton of every creation. Rooted in generations of master craftsmanship, this structural precision lays the foundation upon which artistry can truly flourish. From this solid base, wood carving emerges as a natural extension of the craft. As one of humanity's oldest artistic expressions, it transforms wood into sculpture, enriching each piece with intricate ornamental details and unmistakable character — where structure and artistry exist in perfect balance.

FILIGREE MELODY

Boca do Lobo presents a reimagined vintage piano, transformed into a unique masterpiece through the Filigree technique, one of the oldest jewelry-making arts. Crafted from brass cords gilded in 18k gold, this intricate design showcases the meticulous work of skilled artisans, who carefully solder tiny beads and twisted threads to create delicate, lace-like patterns, blending tradition with contemporary artistry.
