BOCA DO LOBO DESIGN INSPIRATION

WITH AN EXCLUSIVE INTERVIEW

PASSION IS EVERYTHING

Posh, Sharp, Glamorous – this is how we could describe the stylish and fresh interior design creation by Ekaterina Lashmanova, a residential apartment for a young family.

The refined work of Ekaterina Lashmanova, through an attentive dedication to details, reaches its apogee within this contemporary project, flowing into an inspiring bold apartment in the imposing city of Moscow, Russia.

Ekaterina had the free pass to open the doors of the place and spend some time bringing to life the most tasteful trends. She designed more than a house – she created an inspiring and iconic place to live in. From the high-ceiling to the details of the curtains, everything is custom made, conceived by artisans – a constant search of singularity and perfection.

Behind the inspiration of the talented Russian interior designer is a profound admiration for the Portuguese Design – and Boca do Lobo has a main role, leading as pioneer of a product design made to break boundaries through the aesthetic and bring handcrafted artistic pieces into people's day-to-day life.

The living room shape has grand ceilings and large windows which the designers used to their advantage. The classical accents with fresh color palette are highlighted by the Wave center table due to its gold hammered finish and contemporary lines. Taking center stage, the creation by Boca do Lobo brings sophistication and an unexpected contemporary vibe to the room. Blue hues and sensuous creams pair perfectly with the graphic flooring and the subtle gold accents in the lighting that extends throughout the apartment. The bedroom's pale touches and rich finishes screams comfort and elegance to one of the most important rooms of the apartment. A glamorous bathroom portrays a funky style with its bold pink panels and the art nouveau gold mirror.

Black pronouncements like the big indoor frames gives a posh touch to keep the majestic apartment as modern as rich.

EXCLUSIVE INTERVIEW

ekaterina LASHMANOVA

The new design - apartments for a young family - is made on the same principles. "Customers are different," says Ekaterina. - But the owner of this apartment is ideal! I remember how i come for meeting to discuss the future concept of the interior.

We were talking about design, about trends, and in one moment she asked me what I like. I opened my laptop and started showing my moodboards and what inspires me. "That's exactly what I want," immediately said the owner. - Let's do it! "If with the decorative design of the interior everything just turned out, then over the redevelopment had to break head.

"Being an architect by education, I pay a lot of attention to space planning. In an ill-conceived layout it's uncomfortable to live, and in this case the decor will not save it, - Ekaterina admits. - This apartment had its indisputable advantages: high ceilings and a large number of windows from floor to ceiling.

However, the apartment plan was a quarter of a circle. To create rooms of the right forms, they had to be levelled by walls, cabinets, radius cornices and curtains. "In addition to the living room, two bedrooms, two bathrooms, two dressing rooms and a dining room, combined with a kitchen, the apartments were allocated a place for a small study.

"During the photo shooting of the interior, I went into this small room to rest, sat on the couch and suddenly felt for myself how comfortable it was," reminds the designer. - On the one hand, everything here is very chambery: a sofa, shelves and a coffee table.

But at the same time you are sitting opposite a huge window from floor to ceiling on the tenth floor, and you have a beautiful view of Moscow. An indescribable feeling of relaxation. " As in most projects of Ekaterina Lashmanova, many objects and all carpentry work in this interior are made to order in private workshops.

"We have our own high-class cabinetmakers and textile specialists, with whom we have been cooperating for many years and whose quality of work we trust very much " says Ekaterina. But most of the furniture and lights came here from the US and Portugal.

"I'm impressed by the Portuguese designers," Ekaterina admits. - Everything they do is very fashionable and relevant. What this interior needs! "

the techniques of BOCA DO LOBO

FILIGREE

When crafting a piece like this, the end result is always different, each piece is unique. It is hand-crafted work, a work of love.

The art of filigree was born during Roman period and it was passed down through the generations of skilled medieval jewelers, often emulating the work of the Byzantine goldsmiths of Constantinople, embellished crosses, reliquaries and the covers of bibles. Later, the filigree became very popular in the French fashion world from the 60's until today. And actually, countries such as India, Italy, and of course, Portugal, have been treasuring it. Deeply embedded in Portugal's history and culture, there are countless brilliant examples of this remarkable technique.

JOINERY

Fine furniture calls for beautiful forms and one-of-kind silhouettes. One of the oldest arts of humankind reborn from the perfect marriage of ancient skills with mechanical methods.

Joinery is one of the most elementary concepts in woodworking that connects different pieces of wood. A basic yet precious foundation that built the pieces' skeleton, therefore we have always put this efficient technique in the spotlight of our designs. Even the look of a joint, how strong it is, how long it will last thru time, and other characteristics are determined by the joining materials and which kind of technique is used in the process. A knowledge that valuable woodworkers have been putting into Boca do Lobo's designs to make sure to enlighten one-of-kind silhouettes.

AZULEJO

The renowned hand painted tiles reflect a Portuguese tradition with hundreds of years. There is no surprise that Boca do Lobo honors this treasurable fine art in the Heritage iconic series.

Portugal, the country of whimsical beaches, Porto wine, seafood, and also azulejos. Even people who aren't familiar with the term, they visually recall the ceramic tiles painted in blue artistic patterns, repeated in many historical buildings or as rich accent elements such as house numbers. Profoundly linked to architectural use, it is usually applied as wall covering decoration, layering large surface areas on both the inside and outside of buildings. And we are proud of them.

METALWORKING

To form, to cut, and to joining processes can be a praiseworthy playground. An artful creative assortment of large-scale structures, assemblies, to the most delicate jewelry.

Nowadays the metalworking can be truly artful to conceive a wide range of large-scale structures, assemblies, to the most delicate jewelry. It requires discipline, vision and strength. Since early, Boca do Lobo has no restraint to use different processes and tools to shape new designs, by giving to our pieces rough yet powerful expression. To form, to cut, and to joining processes have been a praiseworthy playground.
