INTERIOR DESIGN SPRING TRENDS FOR 2017

Portuguese Embassy in Madrid – Project by Pepe Leal

The Winter Indoor season comes to an end and that means it’s time to analyse new design trends. One of the great thing about interior design is that it is constantly evolving and it’s important to go in the same direction to the market.

Every season, Boca do Lobo goes in the same direction of the tendencies but not to the same extent as the market. 2017 is the year we return to organic roots. In that year we will see a desire to counteract uncertainty with authenticity, raw humanity, craftsmanship, comfort and simplicity. This will be evident within interior design trends for the flowering season.

METAMORPHOSIS SERIES

By definition, metamorphosis indicates an alteration is physical build and structure, commonly associated with insects. As a great novel of the 20th Century, written by a phenomenal thinker for his time, Franz Kafka, Metamorphosis digs deep introspection, unknowingly looking for meaning or something to hang on to. This is the word which rung in conversation and thought, and has come to symbolize a new line of thought, and design inspiration for Boca do Lobo.

Insects can be repulsive and can make you think of how different and unique life is by itself. As a subjective concept, beauty can be found in the strangest things, but is guaranteed a place in what is known as luxury. The statement is out, and the Metamorphosis has just begun.

DIAMOND METAMORPHOSIS | Sideboard

A new take on one of Boca do Lobo's most iconic pieces, the Diamond undergoes a process of Metamorphosis and enters a new aesthetic realm. The merging of metamorphosis as an evolutionary process, commonly associated with insects, with the philosophical connotation of the word that originates from Kafka's prime work, the Diamond Metamorphosis Sideboard questions the meaning of beauty and seeks to provoke a reaction.

CONCAVE METAMORPHOSIS | Mirror

The Concave Metamorphosis Mirror portrays a territorial dispute, where chaos is indulged and spread across simplicity represented by the clean slate upon which it takes place. A take on Metamorphosis from both its literal and philosophical meaning, this luxurious mirror represents the removal of creative boundaries, and tests the beauty ideal.

**METAMORPHOSIS | Center Table**

The enormous success of the Metamorphosis Series gave birth yet to another unique creation – Metamorphosis Center Table. Similar to the dramatic transformation and the sudden change in the animal's body structure, Metamorphosis Center Table experiences new unexpected design techniques, noble finishes through a meticulous artistic process. The center table is composed by two fragments, finished in mirror and noble marble and beautified by the presence of golden creatures that are prepared for their ultimate metamorphosis.

**METAMORPHOSIS | Sconces**

Similar to the dramatic transformation and the sudden change in the animal's body structure, Metamorphosis Sconces experiences new unexpected design techniques, noble finishes through a meticulous artistic process. The two main finishes marble and brass blend in pleasant and graceful conversation between the roughness of brass and the elegance of marble.
