Two Handcrafted Sconces to Dress Up Your Walls

Originally created to hold candles, Sconces are now available in numerous styles, sizes and shapes. They're the perfect choice for narrow spaces, such as hallways, or to complement any particular aspect of the room, like a piece of artwork.

Any room can benefit from a Wall Sconce, and since the options are unlimited, you can go for a slender wall torchier with clean, straight lines for a modern look; or maybe chose an oversized cast iron fixture to provide ample ambient lighting, while lending a rustic look to your space.

Sconces are great for flanking paintings, bathroom mirrors, and headboards, as well as adding light to a reading nook without a table. They're also helpful in small entryways, hallways or staircases where floor space is minimal.

Bearing all this in mind, Boca do Lobo created two more Wall Sconces: Metamorphosis and Supernova!

Boca do Lobo's only purpose is to evoke emotions, transmit concepts and shift mind-sets. Boca do Lobo's ability to create timeless yet contemporary design pieces is a continuing process of maturation and art expression. Practice makes perfect.

Metamorphosis

The enormous success of the Metamorphosis Series gave birth to yet another unique creation. The Metamorphosis Sconces experiences new and unexpected design techniques, living up to its name.

The two main finishes are marble and brass blended in graceful conversation between the roughness and the elegance. Just like a luxury jewel, these are the most sophisticated lighting accessories for your home.

The cherry on the top: you can personalize them in white or black marble.

Supernova

Supernova Sconce is born from the cataclysmic explosion of a massive star. The instant of a bright star burst was translated into a fascinating lighting design.

Actual Supernovas can briefly outshine entire galaxies and radiate more energy than our sun will in its entire lifetime! The suspended brass particles of Supernova Sconces will offer you a timeless explosion of light and energy.

The standard Supernova Sconces comes with two lamps. The thorough foundry process of the metal makes this piece so special. The main finishing is in gold plated casted brass.
